

*The 11<sup>th</sup> International Conference on Clustering Aspects of Nuclear Structure and Dynamics*

Thursday 26.05.2016

**PLE-Session 10: Superheavy Nuclei and Cluster Decay (Chair: D. Poenaru)**

- |                      |                     |   |
|----------------------|---------------------|---|
| 9:00 – 9:30          | M. Itkis*           | <i>Fusion-Fission of superheavy nuclei and clustering phenomena</i>                                       |
| 9:30 – 10:00         | N. Carjan*          | <i>Symmetric and Super-Symmetric Spontaneous Fission of Very Heavy Elements: Challenges and Prospects</i> |
| 10:00 – 10:25        | D.M. Kamanin        | <i>Observation of shape isomer states in fission fragments</i>  |
| 10:25 – 10:50        | Yu.V. Pyatkov       | <i>Collinear cluster tri-partition - the brightest observations and their treating</i>                    |
| <u>10:50 – 11:15</u> | <u>COFFEE BREAK</u> |   |
